

Let's get organized!

A selection of organizers and workstations
for added efficiency and convenience
in the clinic

MEDICNRG™
Precise Endo Technology

Optimizing Your Endo Performance

ENDO – WORKSTATIONS

Endodontic Workstation – DE001-1

The ideal organizer for root canal work. All tools under one lid. Improve work flow and efficiency. Tray and file stand are autoclave safe.

Mini File Stand – DE001-1-2

Suitable for autoclave sterilization.

File organizer set – DE003-1

Autoclave safe, for maximum efficiency. Sterilize six sets of files at once. The files are contained in six separate tubes to ensure sterility for individual treatments in one compact container.

DENTAL

Burr Organizer – D001-1

All types of burs under one roof. Each burr is clearly in sight. Autoclave safe model also available.

Burr Organizer – D001-1atc

Autoclave safe tray- help prevent cross contamination!

Round Burr Stand – D002-1

Convenience and efficiency, with each burr clearly in sight. Easy access to every burr.

Tabletop Grinding Box – D007-1

No more dust!
Improved ergonomical design, with special supports for your wrists.

Mobile Grinding Box – D007-2

This compact design is friendly to your work environment. No need to leave your chair. Both you and the patient are protected against dust fragments.

X-Ray Film Developing Box – D008-1

An important tool in your clinic with improved, ergonomical design with optimal hand placement. Purchased by Kodak – to be used as a back-up for digitized clinics.
